1.0 BACKGROUND/INTRODUCTION:-

The project “*stops child abuse now!!!*” Was implemented in for three months in Karambi Sub County. Following the first project that was implemented in this sub county, in 2012-2013 which was aiming at protecting the children rights. While following the report which was compiled after the implementation of the project. It was observed that there was problem of increasing of child abuse both physical and emotional which was dangerous to the lives of children. Therefore stop child abuse now was implemented to give more capacity building to child abusers. And these are uncles, parents, step parents, teachers etc. In this concern, 86 people were trained in the areas of child protection. 46 were women ad 40 and were men. While in the trainings, we were able to know most of the natives of this place they need to be informed about child protection, hence they do child abuse unknowingly. There is steel need to sensitize the community about the dangers of child abuse in Karambi and Kicwamba, Mugusu sub counties as well.

2.0 SUMMARY OF ACOMPLISHED ACTIVITIES AS PER WORK PLAN

- Sensitizing and creating awareness about stopping child abuse in the communities.
- Holding radio programmes to disseminate news on child protection.
- 25 capacity buildings to 86 members

3.0 METHODOLOGY

In order to effectively, conduct our activities, the following methods were used in our trainings and these are:-

- Group focused discussions
- Question and answer
- Case studies
- Illustrations and experience sharing

ACHIEVEMENT: -

In all our trainings, the participants promised to take action to stop all forms of violence against children and women and also to work with Humura Vulnerable Children/Youth Support (HUVUCSO) organization and any other organization available to work with HUVUCSO and the entire community to stop child abuse and violence against women.

OBSERVATION

- Distribution of training materials to the 86 members who attended the trainings and got our capacity building. More people wanted to join the training, but the resources were not enough (training materials).
- Women and children are the most affected people by domestic violence in the rural set ups in Kabarole district.
- Child neglect was one of the problems affecting children and their mothers. The children do not go to school regularly and to receive all the needs from one parent is a problem, hence child neglect in this sub county was observed as a key problem. The mothers of these children, most of them they earn less than 1\$ daily.

• RECOMMEDATION: -

The community development officer and the district probation officer should work with the organization in the area of child protection to ensure the children in the rural setups are not neglected. They should come in to sensitize the community about the law on child neglect.

HUVUCSO intends to continue looking for partner organizations in the country and overseas to come in and partner with HUVUCSO to address the problem of child abuse and violence against women in this sub county.
