ACHIEVEMENT: -

All the training sessions were carried out and all the targeted participants attended consistently throughout the trainings.

OBSERVATION

Distribution of training materials to the participants was a challenge as the number of participants exceeded 250 that were budgeted for in the work plan .The actual total number of groups registered under activity in the whole sub-county was 250 at the time we carried out the trainings.

House wives were emphasising their husbands to be the major causes of domestic violence. For instance one lady by the names of Bonabana Gladys was quoted to say that “ my husband wakes up his children to dance for him at night, whereas the children are tired need time to rest and wake up early in the morning to go to schools”. She also said that men are neglecting children and sexually abuse them.

Children are abused both physically and emotionally by their parents, care givers, guardians, uncles and etc. but it was fully observed that a big number of these child rights abusers are not fully sensitized about the children and women rights, hence there is a gap to come to grass root to create and sensitize the community the children rights.

On the last day of the training, children were also invited to come and exercise their right of information sharing for the first time. In this regard we were able to know that some of the children are emotionally tortured and others have been set to work in areas where they supposed to work and they make them work for long hours compared to their years. And this is child labour. According to the Uganda’s constitution and the UN Charta on the convention on the rights of the child (CRC).

RECOMMEDATION: -

The community development officer at the sub county level should always have the passionate to work with the local council one committee to ensure the children rights are protected.

HUVUCSO, as a key player to protect the children rights in this community, pledged to mobilize the office of the district probation officer, child and family protection unit (Uganda police) and other development partners to come in and protect the children rights in Karambi Sub County.
